This card is most important in order to be sure you are contacted right away should there be a safety inspection, modification or product recall under applicable laws or regulations. Scroll down to easily select items to add to your shopping cart for a faster, easier checkout. Visit the Canon Online Store An optional accessory for the GL2, the BP945 can deliver up to threeandahalf hours of recording time using the viewfinder only or up to 200 minutes when the LCD screen is used. Times vary depending on camcorder. 7200mAH It will charge one battery at a time. Once the batteries are charged, the CH910, with batteries in place, can be clipped to your belt and then connected directly to a Canon Digital Camcorder. This will give you twice the recording time of just one battery. It can be used with any combination of Canon BP900 series LithiumIon batteries. There is also enough room to store additional battery packs, MiniDV cassettes and the WD58H wideconverter, etc. The cable connects to your camera and to the USB port on your PC or MAC Computer. Comes standard with the EOS 1Ds Mark III, 1D Mark IV, 1D Mark III, 1Ds Mark II, 1D Mark II N, 1D Mark II, 5D Mark II, 7D, 5D, 50D, 40D, 30D, 20D, 10D, Digital Rebel XTi, Digital Rebel XT and Digital Rebel. Please see Compatibility tab for compatible models. It attaches to the camcorders advanced accessory shoe, providing power and connections without any wires. With a depth of almost 300mm, the case will also hold a range of other accessories in its base, making the package completely versatile. All of them refused to sell me the manual. I have managed to purchase service manuals for every piece of pro video equipment that I have owned over the past 20 or more years and they have come in handy several times. Now that I am considering the purchase of a second GL2, I want that manual.

The GL2 has been my first experience with Canon video products and, even though the output of the camera is excellent, their refusal to allow me to purchase the manual, makes me wish I had stayed with Panasonic. Thanks for your help. John Looks like youll have to go back to Panasonic. Just curious why are you so insistent on having such a manual Buy with confidence from our sponsors. Handpicked as the best in the business. Really! See some of my work one frame at a time www.KenTanaka.com I try to buy good stuff and get lots of years of service out of it. That being the

case, I often find that I can not get things repaired when they do break because the repair shops have stopped supporting a particular item. I have found that if I have a manual I can get a quality technician to work on equipment that he normally would not. The service manual quite often contains operating methods that are not covered in the operating manuals too. When ever a company refuses to sell service manuals I automatically wonder what they have to hide. This applies to every thing. JohnThey will repair any camcorder up to seven years past the date it was discontinued. After that, you should probably consider upgrading to whatever format is current seven years from now! I pointed out the service centers as a resource for you in case your Canon camcorders are ever in need of repair. Im sorry we cant be of any more assistance to you. Best wishes,Just curious about when Ill need to to replace the GL1s I use for wedding videos. I wont want to use them when service is no longer available.
