Daiwa Bw2 Manual

This is the place to download a manual. Regards Geoff Press the ratchet ring down towards the star drag as you turn the handle backwards to unscrew it from the crank shaft. There should be a dial on the side which controls a magnet that keeps it from backlash make small adjustment and cast also use your thumb to aid in controlling the spool. Then practice practice practice. Peace, Shepp Login to post Daiwa, Abu Garcia, Shimano are popular fishing reel brands available in the market. All the product from these brand is durable and high quality and you can purchase from these brands. I have found a pair of an article about the best fishing rods and reels that you can check. Here is the articles Best Baitcasting Reels brand The handle turns backwards, and this is a reel that has antireverse. Other methods use a ratchet. Yumoshi fishing reel. Answer questions, earn points and help others. Featuring forwardthinking designs and components including hyperspeed ball bearings, carbon fiber handles and freefloating spools, Daiwa baitcasting and spinning reels are use by weekend warriors and professionals alike. Daiwa reels are designed to be easy to adjust and easy to use so more time can be spent fishing than making adjustments. Using a Daiwa spinning or bait casting reel can be done successfully by a wide range of anglers. Spinning Reel Check that Daiwa spinning reel to determine whether it is securely mounted to the reel seat of the spinning rod. Tighten the locking rings so the reel is held in place if necessary. Hold the Daiwa spinning reel and rod with your dominant hand. Grasp the handle of the rod so that your middle and ring finger split around the foot of the Daiwa reel. Wrap your fingers and thumb around the hand of the spinning reel. Rotate the bail wire of the Daiwa reel so that the line roller is located up or at the 12 o'clock position. Reach forward with the index finger of the hand holding the rod and hook the line just above the line roller. <http://www.aqualife.fi/userfiles/file/canon-sure-shot-telemax-manual.xml>

Grip the line with your finger and hold it in place. Open the bail of the Daiwa reel with your opposite hand and lock it back into place. Bring the rod back to the side and then forward toward the target on the water. Release the line as the tip of the rod approaches the direction of the target. Close the bail of the Daiwa spinning reel once the lure or bait is in the water by turning the reel handle. Continue turning the handle to retrieve the lure or bait through the water. Baitcast Reel Locate the brake adjustment dial on the side of the reel opposite the handle. Turn the dial to a setting that is in the middle between the Nos. 5 and 7. Hold the rod with your dominant hand. Grip the rod so that your index finger hooks around the trigger of the baitcast rod. Make sure your thumb can easily access the spool release button on the back of the reel. Locate the spool tension knob on the side of the reel beside the handle. Turn the knob so it is completely tightened. Extend the rod out in front of you and press the spool release. Turn the spool tension knob back to slowly decrease the tension. Stop turning the knob when the lure on the end of the line drops slowly to the ground. Stand and face the target on the water. Press the spool release on the back of the spool and maintain pressure on the line with your thumb. Turn the reel sideways so that the handle is facing down. Bring the rod tip back and then forward with a rapid motion. Raise your thumb to release the line as the rod tip approaches the direction of the target on the water. Tips Turning the reel to the side while casting will help to greatly reduce the possibility of backlash. By turning the reel, the forward and downward motion of the spool is reduced, preventing the fishing line from being pulled down into the line on the spool, resulting in a backlash. Thank you for looking and good luck bidding! This Daiwa BW2 flipping reel is in great used condition and is running well. It has a high speed ratio of 5.21 with ball bearing construction. It has a few light marks. But all the decals are nice and vibrant, and completely legible. This reel is a nice model in that it'll go from a casting reel to a flipping reel with the push of a button. Mechanically it feels good and solid. The gears mesh as you'd expect from a quality Daiwa reel. The clutch is nice. Engages smoothly and with authority, and the drag system is working fine. The flipping function is works fine too. Please take a look at the pictures for condition and in case I missed or forgot to mention something. Don't hesitate to ask questions or for more pictures. I'm happy to help. But maybe not the best photographer.. more For some reason the camera flash made some of the pictures look a little more red, so I tried to include pictures both ways. Unfortunately, I needed to use the flash to show more detail. This is a quality reel at a tiny price. And with its dual uses both as a casting and flipping reel, you NEED to add it to your arsenal. So good luck and happy bidding. You pay what I pay for shipping. I do not mark it up to make a profit. There is a very small included fee that offsets the cost of boxes. Envelopes, bubble wrap, tape, etc. I am not an expert with most of the items I sell.
